Note 2 – Compliance with generally accepted accounting principles and basis of financial statement presentation

The financial statements of the Company have been prepared in accordance with the Philippine Financial Reporting Standards (PFRS), Philippine Accounting Standards (PAS), International Financial Reporting Interpretations Committee (IFRIC) and Standing Interpretations Committee (SIC) Interpretations.

The policies set out below have been consistently applied to all the months presented. The Company's financial statements were prepared in accordance with generally accepted accounting principles in the Philippines (GAAP) and in conformity with PFRS

The preparation of financial statements in conformity with PFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgment in the process of applying the Company's accounting policies. The areas involving higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed properly.

The accounting policies adopted in the preparation of the financial statements are consistent with the most recent annual financial statements.

Adoption of new accounting standards

The ASC approved the issuance of new and revised accounting standards which are based on revised International Accounting Standards (IAS) and new International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) which are effective for annual periods beginning on or after January 1, 2005.

These new Standards have been renamed PASs to correspond to adopted IASs while the PFRSs correspond to adopted IFRSs. The Company adopted the applicable PASs and PFRSs effective January 1, 2005:

PAS - PAS 1, 2, 7, 8, 10, 12, 16, 17, 18, 19, 21,23, 24, 27,28, 32, 33, 36, 37 & 39

PFRS - 2, 6, 7, 8, 10, 12, 13

IFRIC – 1, 5 & 20

Adoption of PFRS 9

After consideration of the result of its impact evaluation and the postponement of the effectivity of PFRS 9 to annual periods beginning on or after January 2015, the Company has decided not to early adopt PFRS 9 for its 2015 annual financial statement.

however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

The net defined retirement benefits liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method. Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined retirement benefits liability or asset
- Remeasurements of net defined retirement benefits liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in consolidated statement of comprehensive income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined retirement benefits liability or asset is the change during the period in the net defined retirement benefits liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined retirement benefits liability or asset. Net interest on the net defined retirement benefits liability or asset is recognized as expense or income in statement of comprehensive income.

Remeasurements, comprising actuarial gains and losses, are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to statement of comprehensive income in subsequent periods.

The Company's right to be reimbursed of some or all of the expenditure required to settle a defined retirement benefits liability is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.
